

INFIDEL EJERCITO

we are vagrants and migrants-united by defiance...we swear by mutant creeds-evolving newborn science...la lutte ouvriere-class war in gallic style...flows through intersectional rivers-elevating the marginalized...un ejercito grows transcendant-a global army rising proud...la justicia es nuestra alma-black power here and now...infidel or agnostic-atheist or devout...we reignite an intifada-shaking off deadly powers...we must uproot patriarchy-dismantle white supremacy...our people yearn to live-yearn to love-yearn to breathe...the rancid stench of criminality grows more toxic by the day...we face a

system out of control—a world in chronic pain...nuestro ejercito infiel can stop this juggernaut in its tracks...inspired by a synergy of tactics—making workers' power a nascent fact....arise ye prisoners of starvation—arise ye wretched of the earth...a titanic struggle is looming—si se puede—oui on peut
