

SUN GOD: a poem for riley

cosmic powers infuse our lives—breeding genius
and stoking fires...the sun eclipsed by the moon on
high—a baby born amid karmic lights...we bid you
welcome dear riley—to this world at war...between
the forces of evil and the prophets of yore...we
bring you into community—with our movement
and our dreams...we bless you with love and will
show you what we mean...it takes a village to raise
a child—but it takes revolution to rebuild our
world...we welcome you in from the wild—with red

and black flags unfurled...you are born into love
and blessed with sacred gifts...with the intuition of
the jedi—a force to conquer the sith...you will have
the power of the sun god of ancient semitic
rites...you are destined to be an angel to guide us
through troubled nights
